Dear Councilor Albright,

We are writing to express our deepest gratitude for your leadership and work on the “Welcoming City Ordinance” on February 21st. The passage of the ordinance has been a critical step in providing sanctuary for all immigrants who call Newton home, or work in Newton. It is important that city officials stand up for the well-being of immigrant families, and we commend your open commitment to justice and community.

We recognize the passage of the “Welcoming City Ordinance” as an important step in a broader process towards creating safety for immigrants throughout Newton. We look forward to working together to continue materializing a sanctuary for immigrants, and ultimately, the greater Newton community.

Sincerely,

The Matahari Women Workers' Center Team
